Abstract. The title should be written in capital letters. Then, it is helpful to enclose the first letter of personal names in braces, for instance, to type “{G}AKKO {T}OSHO” for “Gakko Tosho”. The first page should be composed of only the title of the paper, names of the authors with their affiliations and e-mail addresses, the abstract of the paper and any footnotes, including Date of Receipt, AMS Subject Classification, Keywords, etc. Keywords will be used for indexing purposes.

1 Introduction

The text of the paper should begin with the “Introduction (or 1. Introduction)”, and it should be written from the top of the second page. On each page the area should be fully used for the text.

Formula numbers should be placed at the left (or right) line border. Classifying words such as Lemma, Proposition, Theorem, Corollary, Definition, Remark and Example should be printed in boldfaces.

Definition 1.1. The statements of definitions, remarks, and examples are preferably printed in “romans”.

Theorem 1.1. *The statements of lemmas, propositions, theorems and corollaries are preferably printed in “italics”.*

The references should be entitled “References” in boldface, and it should be listed in alphabetical order with numbers [1, 2, 3, 4], at the end of the text.

2 AMSA class file

The class file “amsa.cls” is available for the paper submission to Advances in Mathematical Sciences and Applications.
